IV. METHODS OF INSTRUCTION
A. Multimedia Presentations
B. Lecture
C. Discussion
D. Demonstrations
E. Class Activities
F. Homework: Students are required to complete two hours of outside-of-class homework for each hour of lecture

V. METHODS OF EVALUATION
A. Demonstration
B. Class participation
C. Written Assignments
D. Written or Oral Examinations
E. Practical Evaluations

VI. EXAMPLES OF ASSIGNMENTS
A. Reading Assignments
   1. Read an article describing the cardiorespiratory and other health benefits of step aerobics. Share your findings with the class.
   2. Select and read three articles and record the effects of increased music cadence and step height on heart rate. Test your findings in class.
B. Writing Assignments
   1. Write a two page essay on the benefits of aerobic training on health.
   2. Write a one page personal fitness goals paper utilizing the results of the pre-testing. Address the five components of fitness.
C. Out-of-Class Assignments
   1. Count and record the number of stairs you climb in a 24 hour period. Be sure to use stairs whenever possible.
   2. Utilizing the internet, live performance, or video, watch a step aerobics routine, and demonstrate one 32 count choreography block you observed in class.
