  - D - Social Sciences
PROGRAM LEVEL LEARNING OUTCOME(S) Supported by this course:

identify and value disparate systems of social norms and values that influence the human communicative process.

COURSE LEVEL STUDENT LEARNING OUTCOME(S) Supported by this course:

1. Explain bases for, theories of, and processes of gender specific communication.
2. Identify and discuss the external factors and influences that have shaped their own gender identity and self-awareness.
3. Demonstrate an understanding of the role gender identity has on personal and professional communication.
4. Evaluate the role of social and environmental factors that impact gender development and communication.

COURSE OBJECTIVES:

1. Identify and describe contemporary theoretical explanations for gender and gendered communication differences.
2. Explain the way language and symbols construct gender in the context of larger sexual, racial, ethnic, and class identities, and how gender in turn affects communication styles and practices.
3. Evaluate gender role socialization and the role of popular culture in influencing gender communication.
4. Recognize and discuss how perceptions of gendered communication vary from different standpoints such as those of heterosexual, LBGTQ, and cisgender men and women.
5. Demonstration of various strategies and techniques for improving communication.
6. Utilize both field-specific nomenclature as well as effective oral, listening, and critical thinking skills needed to manage effectively communication encounters in diverse social environments.

COURSE CONTENT:

LECTURE CONTENT:
